Main Function

Tone-up Base

Like make-up base, this peachy cream penetrates the skin tone naturally .

Primer function

Primer function, which gives blurring effect to the skin, helps good makeup after sun block.

Sebum Absorption Powder

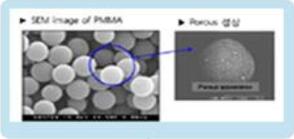

Sebum absorption powder keeps the skin shine-free and controls excessive oil.

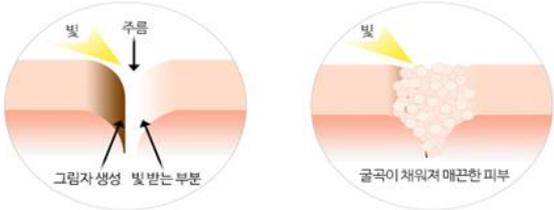

Sebum absorption without greasy feeling

Matte smooth finish

Sebum Absorption Powder

Sebum absorption powder helps to control sebum secreted excessively from the skin.

Left: 빛 (light) causes 주름 (wrinkles) and 그림자 생성 (shadow formation) in light-receiving parts. Right: powder fills pores, resulting in smoother skin (굴곡이 채워져 매끈한 피부).

Primer function

SOFT FOCUS EFFECT

Blurring Effect Test

Before → After

Filling in pores smoothly with a Soft focus effect!
